Now is the time set aside to discuss the building addition for the Rosebud County IT Department. Commissioner Lee explained where the current equipment is housed currently and all agreed it would be best in a new building that is sterile for servers which would require an addition to the building where the IT Manager has his office currently. Commissioner Hein mentioned that the building will be on the southeast corner so it can be accessed from inside the current IT building. The initial budget was thought to be around \$43,000 but with electrical work and a need for a generator it will be over \$100,000. We will contract local contractors to get quotes for the building addition, if the total is over \$80,000, we will have to put the project out for bid.

Commissioner Hein motioned to approve an addition to the Internet Technology Building. Commissioner Lee seconds motion, motion carried, 2-0.

There being no further business to come before the Board at this time, they adjourned sine die.
